## MICRO BUSINESS AWARD FINALISTS

### SKYCORE

Develops photo luminescent (glow in the dark) products, liquid absorbents and environmental protection equipment. Plus, two new products: "Zorbe Indoor" and "Spill Zorbe" (designed to reduce consumption of water in homes and industry while creating safer work environments).

### JOBFIT SYSTEMS INTERNATIONAL

A software and services company reducing the global multi-billion dollar problem of workplace injuries and illness. Used to improve the working lives of more than 10,000 workers in some of the world's premier resource companies.

### HONOURABLE MENTION

Cursions  
Financial Recovery and Consulting Services

### MICRO BUSINESS AWARD

"There are over 800,000 micro-businesses operating in Australia and we understand how hard it is to stand out from the crowd. The winner of the Micro Business Award will have no more than four (4) full-time employees and have been successfully operating for no less than 12 months. The winner will have built a market presence that is disproportionate to its relative size, through creative or entrepreneurial means." - **Micro Business Award criteria, 2008**
